ABOUT ME

Passionate Computer Science graduate and web developer with a strong grasp of modern technologies, computer systems, and digital operations. Skilled in technical problem-solving, workflow management, and cross-functional collaboration. Committed to professionalism, continuous learning, and delivering reliable, high-quality results in fast-paced environments.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python, MySQL, MongoDB.

Technical Skills: Node.js, React.js, Bootstrap, Tailwind CSS, GitHub.

PROJECTS

Final Year Project

Road Pavement Indexing (Flutter, Firebase, Mobile Phones Sensors)
- Built a smartphone-based app to detect potholes and measure road roughness using accelerometer and GPS sensors.
- Integrated Fire Base for real-time data analysis and visualization.
- Applied IRI algorithms to enable low-cost, smart road condition monitoring.

GitHub Profile Finder (FindGitPro)
Technologies: React.js, JavaScript, GitHub API, HTML, CSS
- Built a React app to fetch and display GitHub user profiles using the GitHub REST API.
- Implemented real-time search, API integration, and a responsive UI for smooth user experience.

Restaurant Finder (Nearby Restaurant)
- Built a responsive web app using HTML, CSS, and JavaScript.
- Integrated OpenStreetMap and Overpass APIs for real-time restaurant data.
- Added geolocation-based search and interactive restaurant listings.
- Focused on UI design, performance, and cross-device responsiveness.

EDUCATION

Bachelor of Computer Science UET, Mardan   **2021-2025**

CERTIFICATES

- Coursera: JavaScript Programming Essential
- FreeCodeCamp: Responsive-Web-Development
- NFTP: Technical Domain WordPress
- Code Signal: JS Programming for Beginners
